

A SIMPLE AND ECONOMIC SOLUTION FOR THE EVACUATION OF YOUR CERAMIC REFRACTORY FIBERS.

### CERAMIC REFRACTORY FIBERS

During your furnace repair and demolition operations, you will come into contact with CRF.

Valoref has the turnkey solution for their evacuation.

### OUR SERVICES

Valoref will handle the full logistics and documentation management :

We will supply the Big-Bags,

Open a preliminary Certificate of Acceptance,

Guarantee an annual fixed price,

Coordinate the full logistics : evacuation and transport, waste monitoring forms, annual overview,

Group together all of your waste on our classified site.

### SAFETY

#### Classified site

Valoref has a recycling site which treats both hazardous and non-hazardous waste materials :

*Government Authorization n°2495 of 11/10/1996.*

*Supplementary Decree 2012034-002.*

*Receipt 2014-07 acknowledging Decree 98-679 of 30th July 1998 for transport, brokerage and trade of waste materials.*

*Certified ISO9001 and ISO14001.*

#### Peace of Mind

We guarantee that your CRF will be evacuated in full compliance with current environmental and safety regulations.

### VALOREF'S ASSETS

We provide an economic recycling solution.

**We are 100% compliant** with current European environmental and safety regulations.

We are European leaders of refractory revalorization in the glass industry.

We can simplify all of your administrative documents and procedures.
